Younger Looking Hands Maximum save \$72
One hand \$58 (normal price \$85) Two hands \$98

What is Laser Skin Rejuvenation? An exciting new procedure designed to produce younger and healthier looking skin. As most of us age, we begin to see small but visible signs of sun damage appearing in our complexion. This may include sun damage, freckles, rosacea, wrinkles, broken capillaries, dark spots, blotchy skin, redness of face and neck and/or enlarged pore size. This is the only procedure that can treat vascular redness, pigmented brown spots, sun damage and collagen structure at once, with little or no "down time" and with minimal discomfort. *Conditions apply.
